

Scientific topics include, but are not limited to:

- Agri-environmental indicators
  - Indicators for fresh water quality
  - Ground water and hydraulic engineering indicators
  - Indicators for ozone-depleting substances
  - Indicators for marine and coastal ecosystems
  - Deforestation indicators
  - Indicators for biodiversity
  - Indicators for discharge control of sewage
  - Environmental governance
  - Bio-geochemical cycling and modelling
  - Indicators for urban and indoor environmental quality
  - Molecular and cellular biomarkers
  - Environmental disease indicators
  - Environmental radiation indicators
  - Indicators for monitoring of emerging parameters
- **Symposium: Monitoring and Management of the Great Lakes Water Quality: Progress and Challenges**

# You are invited to attend The 21<sup>st</sup> International Conference on Environmental Indicators

An international platform of professionals addressing issues related to monitoring and prediction of environmental quality

**When: August 2 - 5, 2015**

**Where: Windsor, Ontario, Canada**

**Who should attend?**

- **Researchers**
- **Extension agents and specialists**
- **Educators**
- **Students**
- **Technical service providers**
- **Consultants**
- **Environmental managers**
- **Industries**
- **Regulatory & policy makers**

**Oral and poster presentation abstracts will be accepted through May 31, 2015, with options for full papers published in peer-reviewed scientific journals**
